Durum wheat semolina pasta

Durum wheat semolina pasta

Made exclusively with durum wheat, grown in Italy by our members or by farmers we collaborate with. We dry our pasta at low temperatures, over a long period (about 12 hours for long pasta and 8 hours for short pasta) to preserve all of the wheat's nutritional and natural qualities of taste and aroma. All Girolomoni® pasta is made in our fully organic pasta factory.

Pasta from traditional, ancient wheats

Pasta from traditional, ancient wheats

Made using the three ancient varieties of wheat we have brought back from the past: “Cappelli”, a durum wheat variety grown by our members on the hills of Le Marche; Graziella Ra®, Triticum Turgidum Turanicum, originally from an archaeological dig in Egypt and now grown exclusively in Isola del Piano; Farro Triticum Dicoccum, an ancient grain, packed with nutritional qualities.

Olives grown in Italy

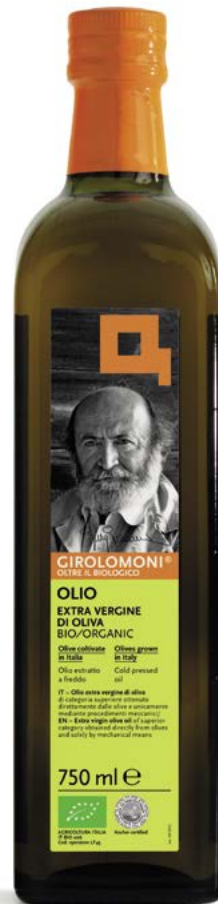

Cold pressed oil

This comes from a small, fully organic grower, working in the olive groves of Calabria, with whom we have been working for 25 years. The olives grown and used for our oil are the Grossa di Cassano variety and the superior quality of oil they produce is obtained exclusively through mechanical cold pressing. Available in 750 ml bottles.

This is the result of long-standing collaboration between our cooperative, which promotes organic growing in Haiti, and the roasting company, Torrefazione Pascucci from Monte Cerignone (PU). A union that strives to boost organic and fair trade products, to restore an essential equilibrium.

The earth is our mother,
a mother that nourishes
you and you have
to take care of her.
